A HUGE Thank you must go out to a great and dear friend Athol Frans from African Pilot Magazine.

In the December issue an amazing article was written by Divan Muler who recapped the details surrounding the fateful day back in 1987.

Thanks for the promotion of my "Power of 10" campaign. If I can get these 1000 souls and supporters then the Seawind will be flying in no time.

Once that is done then we can concentrate on taking this machine on it's global challenge raising funds for the disabled around the world.

I am planting the seeds now: I need a co-pilot to fly with me. Someone who believes that they can put up with me and my moods for anything up to 4 months. Someone who can afford to be away from home and financially keep their household running for the required 4 months we are away..... and the list will grow as we get a better idea of what is going to be required.

Drop me an email at arthur@projectdreamwings.co.za so I start the selection process.
